

WE ARE LOOKING FORWARD

D-ENERGY is a leader company in complete modular E-Houses supply for onshore and offshore installation. Our solutions are fully developed to the customer requirements and specifications: LER, LIR, FAR, Battery Storage, Gas Metering Station in energy sectors. The portfolio is moving towards diversification to design and produce solutions for Water Treatment Plants and Renewable Energy.

D-ENERGY head quarter offices and main warehouse are located close to Milan; has a presence in Abu Dhabi and is in joint venture with Lifting Ropes, a company 100% under control of F2I SGR that is Italy's largest independent infrastructure fund manager, for the construction of any biggest size modular E-house in yard construction facilities at the Massa Carrara port. The area availability in terms of dimensions, including offices and warehouses, is about 25,000 sqm.
