

In 2024, D-ENERGY will continue its decarbonisation campaign, following the strong determination of our clients, who help us to commit to reducing our environmental impact even further. The targets achieved in 2024 are:

	2021	2024
Scope 1 (in Tons CO2e)	35	33.68
Scope 2 (in Tons CO2e)	40	0

**Significant Progress:** From 2021 to 2024, we successfully reduced our CO2e intensity (per unit of sales) by an impressive - 81%. Although we are not an energy-intensive company, we will continue in our efforts to do our part for a better world.
